The second week of April, I and my team brothers worked among the fisher men community in five villages. Actually it is not easy to work among these people, because they are fully against the Gospel of Jesus Christ. These five villages are 28 to 43 km away from for us. We went on bicycle and motor cycle in order to reach these villages. We walked every village and street. Many people are illiterates; we did not distribute many tracts. Through street Evangelism with mega phone we preached the Word of God.

After 7 p.m. we conducted street Evangelism under a tree. Some people gave us much trouble for not conducting the meeting. Then we were ready to cancel meeting, but wonderfully meeting went well. 16 to 19 people attended and heard the Word of God with much interest. Please kindly pray for these unsaved people and for us that need to work there again.
