In fact these were all very anti for Gospel they were all very strong Hindus.

These every village 38 to 42 km far to us and we traveled by motor cycles every day morning at 9 am attending to the ministry and come back to home night 11 pm to 1 am and sometime early hour 9 pm to 10 pm reached homes. Very hardly we worked among these strong Hindus through street Evangelism with mega phone traveling every street and preaching the word of God. And distributing tracts door to door, person to person and through personal Evangelism we meet few people.

Many people were rejected to take tracts and many people destroyed tracts before us and many people talked against us. We tried very much to conduct one street meeting there, but the people did not allow us to conduct it. I hope in the days to come we are able to do more Lord's work there.
